CARBON FIBER ALFA ROMEO GIULIA MIRROR CAPS

ARGL-01

1. This product is a replacement. Because of that you need to remove the original part before you fixed the carbon fiber mirror caps.
2. Before removing the mirror caps you need to remove the mirror. The mirror need to be removed from inside to outside carefully. After that the claps that hold the mirror caps shown. Push out from the claps gently end finally removed the mirror caps.

3. You need a little bit clean up the middle of the mirror caps with an emery.

4. Add adhesive to the back of the mirror caps. As you seen in the picture highlighted places. (We recommended Black Body Work Glue such as 3M or Wurth.)

4. Fix it with some tape (as you seen in the picture) on the parts you have glued and wait until glue to get hardened according to data sheet of the adhesive you used.
